

# CALL FOR PRESENTERS

## 2020 TEXAS WORKERS' COMPENSATION CONFERENCE

### THE HUMAN ELEMENT

As workers' compensation evolves, the great challenge is remembering how the human element fits into the equation. We're looking for presentations that explore ways to keep the human element in mind as we strive to improve safety, health care outcomes, costs, and claims processing. We are also looking for presenters on issues surrounding fraud. Topics should be of interest to health care providers, medical office staff, case managers, employers, attorneys, adjusters, insurance carriers, risk managers, and safety professionals.
