3/10/17

Dear Colleague,

My name is Dr. Emilio Rodriguez-Peris. I am an internist working for the past 17 years in an inner city environment mostly working with a low income population of South Providence, Rhode Island.

I have been sending patients to Dr. Victor Pedro for a while now and I have been most impressed with the quality of care that he provides and the results of his Cortical Integrative Therapy program.

Most patient that have gone through the program have improved significantly and the ones that did not, usually were related to non compliance or difficulty getting rides to assist the program.

Therefore I strongly recommended and fully support this cutting edge technology and different approach of treating patients with conditions that exceed the limits of our current health system possibilities.

Sincerely,

Emilio Rodriguez-Peris, MD
